Toilet composting microbes that work !

Reviewed in the United States on January 27, 2021

I started using these compost microbes in our camp composting toilet about 8 months ago. The Sun-Mar microbes seem to work better allowing for the composting process to work faster! Have bought again.

Sunmar's compost is criminally overpriced. Just use a sawdust or woodchips and peat moss 50/50 mix, plus a table spoon of these enzymes every few weeks.

It has worked great in the past, but this one does not have the pleasant smell, the previous one had. But I suppose that was not it main purpose.

I always use the microbes in my composting toilet. They do a great job of breaking down everything into compost. No smell, no mess.
